

COME ON COME OVER / C.O.C.O.

Come on, come over
As fast as you can
You're afraid that you won't like it
But you don't understand

One thing, my brother
I can tell you true
The more time you spend feeling happy
The less time you'll be blue

CHORUS : Come on, come on over X4

Come on, come over
Everyone's waiting on you
We're wondering when you'll get tired
Of wondering what to do
There is something here
That cannot be denied
Get on the floor and get on down
Don't knock it 'til you try

CHORUS

BRIDGE : People of the world have been uptight far too long
While you're busy making stands, everybody's making plans
To move on, move on, move on,
Move right along
